

WHS AP and Pre-AP Chemistry Grading Policy

Grades will be composed of two assignment types:

1. Quizzes
2. Tests (Module and Term)

Quizzes will be grouped into the minor grade category and all tests will be grouped into the major grading category.

Quizzes – 40% of overall grade

Tests – 60% of overall grade

Retake Policy:

Quizzes

Quizzes can be retaken for full credit. Any student with less than a 100 is capable of retaking a quiz. In order to be eligible for a retake a student must show that they have completed the necessary background work for the quiz. Background work that will be checked for completion and quality includes:

- a. Notes over lectures assigned for the module
- b. Chapter outline for assigned chapters for the module
- c. Module practice problems must be completed, graded and, if necessary, corrected
- d. The original quiz must be corrected

Quiz retakes will occur in the testing center after the student has shown the teacher the above requirements. Quiz retakes must be completed within one week of the original quiz and under normal circumstances a student will only be able to retake the quiz a single time.

Tests

Tests can be retaken for a maximum grade of a 70. Test retakes will be available online and can be completed outside of the classroom. Any student with less than a 70 is encouraged to retake the test. A student must score an 80% or above on the test retake questions to raise their score but they can try as many times as they like to reach this score. The retake must be completed within one week of the original test.
